public buildings, amount to more than the estimated cost of the improvement. The archives of the country and the various public edifices are still exposed to constant danger from the same cause. A pruder regard for their security would of itself be sufficient to justify the undertaking; but when to the site is superadded the obligation to provide for the comfort, and health, and safety of the inhalm of the city, it would seem to be a mather of imperative duty. In my last annular of imperative duty, it may last annular of the properties of the designation of the Department, and renewed the recommendation of my predecessor for the creation of the office of Solicitor. Experience in the diverse and important duties with which this Department is charged still strengthens my conviction as to the propriety of that recommendation; and, without repeating the reasons therefor, I begieve again to bespeak for it the consideration of Congress.

Alex. H. H. Stuart.

THURSDAY, Dec. 4-P. M. There has been a more active Stock mar-

ket to-day, with an improvement in some of the Fancies. One of the periodical onslaughts upon Erie having been made by a morning paper, the usual result followed, and that stock advanced, closing at 881, an improvement of 1 P cent. It is a subject of curious speculation in the street how long it would take the journal in question to bear Erie to par, and how long to buil Harlem to 60. Students in algebra have here a question worthy of their acutest powers. Reading was also buoyant and went to 601. an advance of | D) cent. The sales were nearly 5,000 shares, and this stock, in amount of transact tions, now takes the lead of Erie. The question of a January dividend is still doubtful, the statements from Philadelphia being quite contradictory. Canton is steady. Hudson River shows a further decline was afterward offered at 99 without sales. Harlem is without change. The extension to Chatham will be opened in about two weeks, giving the Road a connection with Albany and the Northern and Western line of Railroads. It is believed that some ami, cable understanding will be had with the Hudson River Road in relation to fares, &c. Norwich was heavy and fell off to 541, a deckine of 1 [] cent. The market was rather heavy for Erie Securines, and they declined int P cent. Governments were steady but quiet.

There has not yet been much done in Exchanges for the Atlantic, and without change in rates to note, the market has a downward tendency. We quote Sterling 101 @101 : Francs, 5.131 @5.121 .-The supply of mercantile bills is small.

In Freights the market has an upward tendency which checks operations. Shipmasters are asking rates beyond the views of shippers generally Engagements to Liverpool, 1,000 bbls. Flour, 134d 500 bbls. To Havre the packet of the 16th has about 1,000 bales Cotton at le., and some Bark at \$7. To California there is a moderate business doing at 45@50c.

The amount received at the Sub-Treasury is \$44,086 ; Paid, \$6,388. Balance, \$3,310,257. The amount of outstanding Treasury notes is \$162,411, the greater portion of which have

probably been destroyed. The Citizens' Fire Insurance Company

has declared a dividend of 8 P cent. The receipts of the New-Haven and New-York Railroad for November show a continuance of a large business, but a smaller comparative increase than has been before noticed. The

figures are as follows:		
Passengers	\$14,874	59
Commutation		
Freight	7,500	00
Total. Paid Harlem Road for 42,720 passengers	\$52,786 3,804	50 23
November, 1850	\$48,982	27

The fact of there having been five Sundays in last month, while there were but four in November, 1850, should be borne in mind in noticing all the compara. tive statements of Railroad earnings. The above earnings would have been some \$2,000 larger but for this cause. In comparing the Erie receipts from No-vember with those for October, there is an apparent falling off of \$56,000, whereas, making allowance for the two more working days in October, the actual

decrease is only about \$30,000. A correspondent of The Journal of Commerce communicates some of the statistics of manufactures, derived from the report of the census of 1850. In the manufactures of the United States, generally, there were on the 1st of June, 1850 :

aw material consumed mount paid for labor	550,000,0
alue of manufactured articles 1	240,000,0
umber of persons employed	1,050,6
Cetton Goods. Pig Iron.	Cast In
ipital invested	\$17,456,6

We understand that the payment by onto in January, on account of the interest and principal of her debt, will be about two instead of three millions, as we stated yesterday.

A rew Banking house, we hear, is about to be formed in Wall-st., at the head of which will be one of our most eminent and popular auctioneers. Another house goes into operation on the 1st January next, of which Mr. Cashier Curtis of the Bank of Commerce is a member. No appointment to fill the vacancy at the Bank has, we believe, yet been

The City of Manchester, from Philadelphia to-day, took only \$100,000 in coin, instead of the reported half million. We trust this is an omen of a similar disappointment in regard to the Saturday steamer from this port.

The above figures show a gradual and regular increase since last March, so that the deposits of November, were equal to those of both March and April, and are nearly two millions more than in June, when we exported a million of dollars more than we did in November.

There is a larger demand for Money today, which is greatly to be ascribed to its being bank-settling day, but is measurably the result o' the calling in of demand loans by those Banks which have been depleted by the late specie shipments. There is, however, no marked difference in the supply, and we make no change in rates. The tendency, however, is upward.

The amount of duties received at the Philadelphia Custom House in the eleven months ending Nov. 30, was \$3,532,982 against \$3,213,031 same time last year.

The total amount of tunnage arrived at San Francisco in the quarter ending 30th Sept. was (353 vessels) 109,400 tuns, of which, 29,694 tuns was foreign. The tunnage from foreign ports was equally divided between American and foreign vessels. The clearances for the same quarter were (498 vessels) 129,740 tuns, of which, 35,910 were foreign vessels. Arrivals of passongers, 5,870. The amount of goods warehoused was \$649,868. In warehouse, on the 30th June, \$483,922; total \$1,133,790; withdrawals during the quarter, \$710,767 of which, \$330,900 was for export, leaving in bond, on the 30th Sept., \$425,023. The amount of duties paid during the quarter was \$440,080.

In relation to the debt of Texas, the Governor of that State, in his late Message, states that he sent an agent to Washington to make aragements with the Treasury Department, relative to the receipts of the bonds. In answer to his communication, the Secretary of the Treasury decided that he would not issue to the State, under any circumstances, any portion of the reserved five millions until all the creditors had filed the releases, required by the law, even though it should appear that a small portion only of the amount would be required to pay off the protected obligation in full. This decision the Governor thinks is not in accordance with the intention of the law, though it is within the letter of it. He therefore recommends an application to Congress for such a modification of the law as will authorize and require the Secretary of the Treasury to issue to the State all the stock contemplated by the act, upon her filing such releases to the United States as may be deemed necessasy to exoncrate the Federal Government from any liability for any portion or all of the debt of Texas. By the original terms of the Boundary bill the ten millions awarded were to be retained by the United States until " the creditors of the State holding bonds and other certificates of stock of Texas, for which duties on imposts were specially pledged, shall first file at the Treasury Department of the United States, releases of all claims against the United States," The Governor recommends that a period be fixed, after which the claims of the creditors of the State shall be barred, unless they shall previously file their releases to the United States. A report of the Acting Attorney General estimates the portion of the public debt new outstanding for the payment of which the reservation was made, as amounting to only about \$600,060. A portion of the five millions within the present control of the State is recommended to be appropriated to the payment of that class of debt not covered by a pledge of impost duties under the decision of the President. This character of indebtedness amounts to \$985,422, and has been denominated the second class. The Governor says that it is evident that the whole ten millions of dollars will not be required to discharge these dollars will not be required to discharge the out-standing liabilities of the State, according to the scale which has been adopted for ascertaining the actual amount of those liabilities.

Lines on the death of ELEANOR M. DOWNS, who hed from injuries received at Ward School No. 26, Nov. 20, 1051.
She died in youth and beauty, as the intrest flowers die .—
Ged claimed our little darling for his angel world os high.
Brightly beaned the goiden morning,—darkly shows the
braw of night,
For we miss'd from our dear circle one who walked in life
and light.—

One who shone so pure and gentle in each ray of love apart.
That her form, like angel music, thrill'd the key-notes of the heart.

That bright and levely morning we never can forget, Nor the dark and clouded evening when her star of life had set. With her mother's kiss at parting, to the school-room she had trod : With that kiss upon her forchead, soar'd sweet Eleanor to God.

Twas an offering at the altar of a mother's holy love.

On the wangs of truth ascending to the throne of light above.

Oft at night, when shadows gather, flashing on the parlor wall,
We miss a priceless treasure, cherished dearly by us all.
There is room for one now absent, and a single empty choi
Though we feel un angel present when we always place i Thus in holy, pure communion, we oft together meet.

And the unseen angel near us forms our circle still complete.

We have many a toy we treasure : many a little book in store; But the eye that beamed with pleasure will never view them more.

Many a winsome word oft spokes of childhood's hopes and fears.

We still remember clearly, thou remembered now with cas tell; But we know, in our affliction, that he double all things well. Jesus claimed our little darling for his glorious angel throng: as said that Heaven's kingdom does to little ones throng.

He has said that Heaven's kingdom does to intro one-belong.

We only placed the casket 'neath the cold ennacled sod.

The jewel pure is dashing round the spetless throng of God.

We will meet once more in Heaven, free from sorrow, care

storms of life are over, darling, we will meet Passengers to Arrive.

Disasters, &c.

Steanoship Wm. Penn, at Boston from Philadelphia, on the 2d inst., off Chatham, fell in with seths. Panasho, of and for Boston from Bath, entirely dismassed, and took her in tow and brought her to Boston. Capt. Aday, of the Panisho, reports on Sunday last, 19 P. M., when M. onless S.E. of Cape Ahn, it blowing a gale from N.W., lost foremant, and the next day at noon he also lost the mammas, with all the sales attached, and the deck lead of hay.

The Borton Allas states that an eminent merchant of that city, in his instructions to the captains of his vessels, requires that a man shall be sent aloft every morning and evening to scan the horizon, to see if any vessels are in the vicinity, isquiring assistance. The reports of many vessels in distress show that they have frequently been passed by vessels which took no notice of them and we have no doubt that if a regular system of look-outs were introduced into our ships, a coof many lives would be saved thereby.

Ship Torrent, which put into Morfolk 2d inst., is insured in New-York for about \$23,000 on vessel and freight.

Bark Columbia, Taylor, from Willingshon, N.C., for Cadiz, put into Charleston 1st inst., with damage to rudder. Three fauths of ship Canton. distons register, 19 cars old, was sold at acction in New-York, 2d inst., to Mr. Clark for \$3.00.

The gale of lat instant was very destructive in Vineyard Sound A. Alopsail sch. with straw colored trunk, is achore on Tuckerduck Shoel, with no person on board, one while health of the shore on the East sule of Natucket. The names of the above vessels will be found below.]

Brig Lucy Ellen, Smith, of and from Bangor bound to New-Haven, loaded wish lumber, is ashure at the east side of Natucket. She all, with no person on board, one while and proposed to be leat; two sch are ashure on Cape Poge (one undoubted) when him holds a form Bangor, bound to New-Haven, l

jib, and foresall budly torn, having been boarded that day off Chatham.

A brig from Torks Island, with salt, name unknown, went ashore at South Wellinest, on the night of the 1st inst. Crew saved.

Salamander Safes.

The Pearl at Fire.

RICH'S SALAMAN DER SAFE
AGAIN TRIUMPHANT!—While the verious Safe
makers in the city are challenging each other to a trial of
the merit of their respective Safes by fire, but discurrency
upon one important point, how the fire is to be mide, a real
fire takes place, one of the flercest and hottest fives that we
have had in our city for years; three stores are burnel down
and eleven Sofes, of different makers, containing some old brooks of
Mr. Officert's, and fell at the same moment as Rich's Safes
eleven sofes, of their season and brooks of
Mr. Officert's, and fell at the same moment as Rich's, from
the second story, but not a vestage of its contents remains.
This Safe which passed through this terrific fire was
made by Rich's Co., several years ago, and provess
conclusively that they do not deteriorate by ago, but that
Wilder's Patent Solomander Composition when proporly
mixed, and combined with Rich's Patent Improvement, makes
the best Safes in the United States. The fact of this Safe
being which solves that preserved its contents under the
vince every merchant, as we constinced the Editor of The
Merchant's Magazine, by experiments, six years acc, that
the composition put into our Safes is the Safe more of the sever discovered.

By permission of the owner of the Safe, Mr. J. G. Glibert, it will remain at any store a few days, with the books
and oppers undisturbed, to give the holders of Rich's Safes,
and others, an opportunity of seeing the contents. A call
will be exteened a fivor by
